

Salient Features

- Shock Proof ABS Body
- Flow Breaker Easy Lock Jars
- Silicon/Nitrile Rubber Gaskets
- Overload Protection
- Special coating on body for great aesthetics
- Three Speed with pulse
- Special grade Nylon couplers for firm grip
- Computerised Balanced Motor
- Study ergonomically designed handle
- Food Grade Stainless Steel Polished Jars

Voltage	Power Input (Watt)	Speed (RPM)	Rating
230V A.C. 50 Hz.	550 W	18000 Approx	30 Minute

Lagoon

MIXER GRINDER

TECHNICAL DATA :
 Voltage : 230V, A.C. 50 Hz.
 Power : 750W
 RPM : 18000 Approx. (Under no load).
 Rating : 30 minute
 Motor : Universal Heavy Duty Dynamically Balanced
 Material of Housing : Shock proof High Quality A.B.S
 Material of Dome : Polycarbonate
 Material of Lids : PP
 Material of Gaskets : High Grade Silicon
 Material of Coupler : Nylon-66
 Blade Assemblies : Food Grade Stainless Steel.
 Machine Ground and Polished
 Jars : Food Grade Stainless Steel Polished
 Speed : Three Speed with Incher (pulse)

HANDLE WITH CARE

CONTENTS : Basic Unit, Three Stainless Steel Jars, Dry Grinding Blade, Wet Grinding Blade, Small Quantity Grinding Blade, Mincing blade, Whipping Blade, One Dome with Ring, Two Lids with Gaskets, Spatula, Instruction Manual / Warranty Card
